### Recommendation Letter

Anitha Ramaswamy has requested me to write her a letter of recommendation. Every year, I am approached by several dozens of students who request a recommendation letter. However, I end up recommending only a few of them. I believe that a letter of recommendation is very serious business. I write one, only when I am convinced that the candidate is right for the program that she is applying for.

It gives me immense pleasure in recommending Anitha Ramaswamy for the PG program at your university. I have known her for more than 3 years in my capacity as a senior lecturer of the Department of Economics. During her 3<sup>rd</sup> year I was her Professor for Advanced Economic Theory and Growth Development and Planning.

I have come across many students with a sharp understanding and knowledge of Economics, It is the rare student who is able to develop a multi-dimensional perspective of the course of economics, Anitha Ramaswamy is one such rare student. She had developed a conceptual understanding of a fact-based subject like Economics.

Her Project Titled Yokogawa Blue Star Private Limited was among the few best projects carried out in the Department.

She has shown the motivation, intelligence, preserving nature and analytical aptitude for graduate study. Her attendance and her presence of mind has been a key part of her study program that has helped her to contribute positively while working as a part of the team.

In my view, Ms Anitha Ramaswamy compares favorably with the best among my student. I am sure, she will make an outstanding performance at her PG studies. I recommend her in the strongest term for admission to PG program at your university.

Yours Sincerely,
